Rizzini S2000 Sporting

The Rizzini S2000 was originally designed as a gun for sporting clays – its heavy barrels, ventilated rib and sporter stock bear witness to this heritage. It is these very features which also make it an ideal gun for high bird shooting and the S2000 is equally at home on a clay

range as in the steep sided valleys of this country's finest shoots. As with all Rizzini models the S2000 is available in 12, 16, 20, 28 and .410 gauge with a variety of barrel lengths and fully customised stock, with wood upgrades available right up to exhibition quality.
